Vascular
Endovascular
Issues
Techniques
Horizons

Symposium Chairman
Frank J. Veith, MD

Symposium Co-Chairmen
Enrico Ascher, MD
Kenneth Ouriel, MD, MBA
Daniel G. Clair, MD

Sponsored by
 **Cleveland Clinic**

A NEW BETTER MONITORING FOR CEA:

Light General/Endotracheal
anesthesia which allows patients
to demonstrate motor function:

IT REALLY WORKS AND DECREASES PATIENT AND SURGEON STRESS

Accarino G.C.;

Nicolella G.; Subintensive and Anesthesiologic Unit for Vascular Surgery

University Hospital O.O.R.R. "S. Giovanni di Dio e Ruggi D'Aragona" Salerno, Italy

Vascular and Endovascular Surgery
Chairman : Giancarlo Accarino M.D.

Vascular Endovascular Issues Techniques Horizons

Symposium Chairman
Frank J. Veith, MD

Symposium Co-Chairmen
Enrico Ascher, MD
Kenneth Ouriel, MD, MBA
Daniel G. Clair, MD

Sponsored by
Cleveland Clinic

- 11:00 - 11:05** The Case Against Routine Carotid Patching Despite All The Level I Evidence And Hype: How And When To Avoid Patches
Glenn M. LaMuraglia, MD
- 11:06 - 11:11** Endovascular Treatment And Bailout Of Complications From Carotid Surgery: A Simpler Better Solution Than Redo Surgery
Giovanni P. Deriu, MD
- 11:12 - 11:17** A New Better Monitoring Technique For CEA: Light General/Endotracheal Anesthesia Which Allows Patients To Demonstrate Motor Function: It Really Works And Decreases Patient And Surgeon Stress
Giancarlo G.C. Accarino, MD
- 11:18 - 11:23** PTFE Interposition Grafts For CEA Gone Wrong: An Effective And Durable Bailout Procedure
Dieter Raithel, MD, PhD
- 11:24 - 11:29** **DEBATE:** AHA And European Cardiology Guidelines For CAS Have It Right: CAS Is An Alternative To CEA For Symptomatic Patients With Carotid Stenosis
Alberto Cremonesi, MD
- 11:30 - 11:35** **DEBATE:** Nonsense: The SVS Guidelines Have It Right: CAS Is Not An Alternative To CEA For Most Symptomatic Patients With Carotid Stenosis
Michel S. Makaroun, MD
- 11:36 - 11:42** Panel Discussion

SESSION 55 (Grand Ballroom East, 3rd Floor)
NEW DEVELOPMENTS AND CONTROVERSIAL ISSUES RELATED TO CAS AND CEA (5-MINUTE TALKS)

Moderators: **Peter A. Schneider, MD**
Frank J. Veith, MD

- 11:42 - 11:47** Comparison Of 5 Different Guidelines For Treating Carotid Stenosis: How Can Such Differing Interpretations Be Drawn From The Same Data
Kosmas I. Paraskevas, MD
Dimitri P. Mikhailidis, MD
Frank J. Veith, MD
- 11:48 - 11:53** CREST Cost Comparisons Between CAS And CEA: Possible Flaws In The CREST Cost Data That Make Its Conclusions Misleading
W. Charles Sternbergh III, MD
- 11:54 - 11:59** Impact Of Cranial Nerve Defects (CRI) In CREST At One Year: These CRIs Were Minor And Not Equivalent To Strokes
Thomas G. Brott, MD
- 12:00 - 12:05** **DEBATE:** CEA vs. CAS In Symptomatic Patients: The Heart Should Not Rule The Head When Deciding Treatment Strategies
A. Ross Naylor, MD
- 12:06 - 12:11** **DEBATE:** CEA vs. CAS In Symptomatic Patients: The Heart Should Rule The Head When Deciding Treatment Strategies
Peter A. Schneider, MD
- 12:12 - 12:17** Which Carotid Patients Needing Invasive Treatment Do I Currently Send For CEA
Klaus D. Mathias, MD
- 12:18 - 12:23** Are CAS vs. CEA Trials Inherently Biased: Critical Appraisal Of Endpoints
