

# Gore Advanced Thoracic Symposium

## OBJECTIVES

THIS SYMPOSIUM WILL PROVIDE ATTENDEES WITH:

- An update on the five year clinical study and worldwide commercial data
- An opportunity to further hone their case planning and device selection skills
- Information on prevention and management of the most common complications

## TARGET AUDIENCE

THIS SYMPOSIUM IS DESIGNED FOR PHYSICIANS WHO:

- Are very experienced in thoracic endovascular repair procedures
- Want to learn more about the use of the Conformable GORE® TAG® Thoracic Endoprosthesis and the GORE® TAG® Thoracic Endoprosthesis in challenging cases
- Are willing to bring films of future or completed challenging cases, in the effort to inspire interactive discussion between faculty and course attendees

This advanced thoracic symposium will provide a forum for participants to learn from endovascular experts and other attendees about the treatment of complex thoracic cases, including the effective use of the GORE® TAG® Device.

## AGENDA

### OCTOBER 20

- 18.30 Welcome / Introduction  
The GORE® TAG® Thoracic Endoprosthesis: The Science behind  
Take Advantage of Conformable GORE® TAG® Thoracic Endoprosthesis in Case Planning and Clinical Update
